Lab 05: Enhance PowerPoint with Native Charts and Speaker Notes

Topic 01 | Intermediate | PowerPoint + Excel + Copilot | K1 | A1

Goal

Use native PowerPoint charts to strengthen a leadership narrative and prepare a concise delivery.

Expected output

Polished deck with native trend, contribution and variance charts plus verified speaker notes.

Files

- Lumina-Living-Lab-05.xlsx - learner starter and control workbook
- completed/Lumina-Living-Lab-05-completed.xlsx - completed comparison copy
- LAB-05-Instructions.pdf - printable detailed guide
- Other Office files in this folder are specific to this lab

Primary prompt

Improve the attached leadership deck using the workbook as the only numerical source. Recommend where a trend chart, contribution chart and variance chart add decision value. For each, state the takeaway title, the correct chart type, the data range and one caveat. Then draft speaker notes of 60-90 words per chart slide.

Procedure

1. Open the workbook Chart_Data sheet and reconcile totals.

The control row must show PASS before charting.

2. Ask Copilot to recommend chart placements.

Improve the attached leadership deck using the workbook as the only numerical source. Recommend where a trend chart, contribution chart and variance chart add decision value. For each, state the takeaway title, the correct chart type, the data range and one caveat. Then draft speaker notes of 60-90 words per chart slide.

3. Insert native PowerPoint charts using Insert > Chart.

Use line for time trend, bar for contribution and clustered column for actual versus target.

4. Edit the embedded chart data to match the workbook.

Do not paste chart screenshots.

5. Apply takeaway titles and direct labels where appropriate.

Remove redundant legends and decorative 3D effects.

6. Add and review speaker notes.

Notes must explain meaning, caveat and decision; they must not repeat every visual label.

7. Validate charts by comparing three sample points with the workbook.

Record checks in Chart_QA.

8. Save the enhanced deck and export a PDF for review.

Confirm charts remain editable in the PPTX.

Acceptance test

The PPTX contains three editable native charts, sample values reconcile, and each chart communicates a decision-relevant takeaway.

Evidence

- Completed workbook with Prompt_Log and Evidence_Register
- App-specific artifact and a credential-safe screenshot
- Verification, exception and human-approval note
