Tools and Training Accounts

Course: Enhance Work Productivity with Microsoft 365 Copilot | TGS-2024043856

Microsoft 365 training accounts

- training1-tertiary@outlook.com
- training2-tertiary@outlook.com

Passwords are issued by the trainer. They are intentionally excluded from learner-visible courseware and GitHub. Use only the account allocated to you, do not change recovery settings, do not store credentials in prompts or screenshots, and sign out at the end of class.

Required tools

- Microsoft 365 Copilot Chat and app experiences available in the training tenant
- Word, PowerPoint, Excel, Outlook, Teams and Loop
- Microsoft 365 Copilot agent surface or Copilot Studio as demonstrated by the trainer
- Power Automate for the controlled action lab where available

Capabilities vary by licence, tenant configuration and rollout. The trainer will identify the supported route for each lab.
