Lumina Living connected lab workflow

TGS-2024043856 | v8.2 | 7 September 2026

One company, one project: SW-2026 Sustainable Workspace Launch. HR owns staff enablement; Marketing owns the campaign; Finance verifies evidence; Operations owns service readiness. Use your previous lab output as the next input. Each folder includes source or handoff copies for learners joining mid-course; label these as supplied examples.

Word HR policy + Excel analysis → Word report + PowerPoint decision deck → Outlook draft → reviewed Teams post → one shared Loop action register. Agents support the same project and cite the same sources.

Lab	Department or purpose	Output handed forward
01	Project intake and source register	SW-2026-Source-Register.xlsx
02	Project brief	Lumina-Launch-Brief.docx
03	HR staff enablement	Lumina-HR-Policy.docx
04	Leadership narrative	Lumina-Leadership-Draft.pptx
05	Evidence visuals	Lumina-Visual-Evidence.pptx
06	Finance calculations	Lumina-Analysis.xlsx
07	Management analysis	Lumina-Management-Report.docx
08	Business planning	Lumina-Scenario-Analysis.xlsx
09	Cross-department communication	Lumina-Outlook-Draft.txt
10	Meeting and department handover	Lumina-Teams-Update.md
11	Shared action tracking	Lumina-Loop-Evidence.xlsx
12	HR knowledge support	Lumina-HR-Agent-Test-Register.xlsx
13	Operations intake	Lumina-Routing-Test-Register.xlsx
14	Operations action control	Lumina-Action-Run-Register.xlsx
15	Management decision pack	Lumina-Decision-Deck.pptx
16	Cross-department capstone	Lumina-Release-Evidence.xlsx

Working convention

Keep one personal SW-2026 output folder. In early Labs 4-5 use the supplied verified report/deck to learn layout and transfer; in Labs 6-8 reproduce the analysis; in Lab 15 replace those supplied outputs with your verified work. The master dataset contains 96 Jan-Jun records, revenue SGD 933,290, cost SGD 521,097.41 and margin SGD 412,192.59. Staff readiness is 47/56(83.9%). These historical figures must not be confused with the October plan.

Prompt framework

See PROMPT-EXAMPLES.md and its PDF for three complete Goal-Context-Source-Expectations examples.
